ATTN: Dr. Riley

Dear "Dr. Jeff":

Yes! My dear friend, "Dr. Bill's" hands appear to have been duplicated in those of his son! Thank you for the very caring and skilled hands that applied a "corrective measure" on one of my remaining teeth on Wednesday the 24th.

It is such a pleasant experience to have been the object of such gracious and caring personnel on that and the visit with the hygienist on the visit before the 24th. With no exception, I was so courteously and caringly greeted and cared for by your entire great office staff.

Thank you and you can tell "Dr. Bill" (your Dad, of course) that one of his long standing patients feels as though he were in the extentional care of his own hands. You are to be commended and roundly applauded. Again, "Thanks, Dr. Jeff"!

Sincerely,

Lester W Tanner
